American Attitudes toward the Middle East

A PUBLIC OPINION POLL BY SHIBLEY TELHAMI
A survey sponsored by the

Sadat Chair
for Peace and Development
at the University of Maryland

fielded by
Nielsen Scarborough

Note: These questions were fielded as part of a larger poll on foreign and domestic issues. Participants in this study were provided by Nielsen from Nielsen's sample of respondents.
The survey was conducted May 20-31, 2016 with a panel consisting of a probability-based representative sample. The panel was recruited by Nielsen Scarborough from its larger probability-based national panel, which was recruited by mail and telephone using a random sample of households. A total of 1580 panelists completed the survey including a national sample of 855 adults, plus an oversample of 735 millennials (18-34), making for a total sample of millennials of 863. Responses were weighted by age, gender, income, education, race, and geographic region using benchmarks from the US Census. The survey was also weighted by partisan identification and millennials were down-weighted consistent with these groups’ incidence rate in the U.S. Census. The margins of error for the national sample and for each subgroup is: National – 855 respondents, MoE: 3.4% Millennials –863, MoE: 3.3%
The survey was conducted June 24-30, 2016 with a panel consisting of a probability-based representative sample. The panel was recruited by Nielsen Scarborough from its larger probability-based national panel, which was recruited by mail and telephone using a random sample of households. A national sample of 1312 panelists completed the survey. Responses were weighted by age, gender, income, education, race, and geographic region using benchmarks from the US Census. The survey was also weighted by partisan identification. The margin of error is 2.7%

American Attitudes on the Arab-Israeli Conflict
As you may know, the United States has been acting as a mediator between the Israeli government and the Palestinian Authority, with the aim of reaching an agreement in the Israeli-Palestinian conflict. Whether or not these efforts succeed, there is a question about what kind of future for Israel and the Palestinians the U.S. should be supporting over the long term, and many analysts feel that time is running out for some options. Here are four possible approaches that are frequently discussed. Please select the one you think the U.S. should support.

One of the issues of tension between the United States and Israel has been its construction of Israeli settlements in the territories occupied by Israel in the 1967 war. These settlements are considered illegal by most of the international community and have been opposed by every U.S. administration, both Republican and Democratic.
